

## REACH Substances of Very High Concern (SVHC)

Dear Sirs,

For the production of our delivered packaging materials:

**die-cut lids Ø82,5mm PET white 50 my printed and Ø95,5mm PET white 50my printed**

Structure: UV printing (Acrylates), PET white film (Polyethylenterephthalat), Heat Sealing lacquer (Styrene-butadiene)

we can state that, on the basis of the declarations received from our suppliers, the raw materials of delivered packaging material do not contain any substances as mentioned on the ECHA list of Substances of Very High Concern with last updated list of 23/01/2024 or exceed the permitted percentage.

Any updates in the candidate list will be monitored thoroughly and handled accordingly.

Best regards,

Beynost, 13<sup>th</sup> of February 2026  
DIANE JALABERT
